

Edgecam Joins Forces With India's Leading Machine Tool Manufacturer

Edgecam's reseller in India, Kriatec, has joined forces with the country's leading machine tool manufacturer, LMW.

Chennai-based Kriatec Services Ltd and Lakshmi Machine Works, of Coimbatore, have signed a partnership agreement which sees them working together to provide manufacturers with a single solution regarding machine tools and CAD/CAM software.

Kriatec Director Mr Ajitha Prabu. G, says: "LMW machines have a reputation for durability, quality and value. And Edgecam offers specialist functionality for the production engineering and mould and die sectors, dramatically reducing component cycle times, with the added advantage of increased machine tool utilisation."

And LMW Marketing and Sales General Manager Mr Bhattacharya I.N. says: "Customers will benefit from the advanced machining cycles only found in Edgecam, which can unleash the full potential of their investment in LMW machine tools, reducing costs, and improving quality."

LMW began manufacturing CNC machine tools in a technical collaboration with Mori Seiki Co. Ltd., of Japan, later stepping up their independent R & D.

Kriatec Services (P) Limited, founded in 2009, is the sole distributor of Edgecam in India. Headquartered in Chennai, Kriatec supplies CAD/CAM/CAE software which improves design and manufacturing efficiency, increasing productivity and reducing time to market.

Part of the Vero Software Group, Edgecam is a leading CAM solution providing productivity, reliability and flexibility. Vero has direct offices in the UK, Germany, Italy, France, Japan, USA, Brazil, Netherlands, China, South Korea, Spain and India supplying products to more than 45 countries through its wholly owned subsidiaries and reseller network.

Vero is part of Hexagon (Nordic exchange: HEXA B), a leading global provider of design, measurement and visualisation technologies that enable customers to design, measure and position objects, and process and present data.

ENDS

Headquartered in England, Vero Software designs, develops, and supplies CAD/CAM/CAE software radically enhancing the efficiency of design and manufacturing processes, providing its customers with exceptional value through high productivity gains and significantly reducing time to market. The company's world-renowned brands include Alphacam, Cabinet Vision, Edgcam, Machining STRATEGIST, PEPS, Radan, SMIRT, SURFCAM, WorkNC and VISI, along with the production control MRP system Javelin. Despite the diversity of application, these solutions have one thing in common: they all address the rising challenges of achieving manufacturing efficiencies and bring huge value to the operations in which they are deployed.

Vero has direct offices in the UK, Germany, Italy, France, Japan, USA, Brazil, Netherlands, China, South Korea, Spain and India supplying products to more than 45 countries through its wholly owned subsidiaries and reseller network.

Vero is part of Hexagon (Nordic exchange: HEXA B), a leading global provider of design, measurement and visualisation technologies that enable customers to design, measure and position objects, and process and present data.
