Solid Standard for Closets was designed with the small closet shop in mind. Solid Standard for Closets gives you the functionality required to take your business to the next step. Thinking about getting a low-cost CNC Router? This is the product to get you started on your path to CNC Automation.

Solid Standard for Closets is a basic design and manufacturing software tool that allows you to detail basic Closet jobs. Solid Standard for Closets automatically generates your shop drawings, 3D renderings, cutlists, material requirements, part lists and estimating data. Graphically lay out your job to quickly create your shop drawings or use the built in Order Entry function to get a quick and accurate estimate. Easy to navigate ribbonbars make locating items effortless.

All Casegood and Closet products include:

- Drawing Capabilities
- 3D Rendering
- Cutlists and Reports
- Pricing and Bidding
